Digimarc puts our employees, families, customers and partners first, and we care deeply about the safety, health and well-being of our mutual teams, families and communities.

In light of the COVID-19 pandemic, we are asking and encouraging our employees to take necessary precautions, working from home to ensure their health and safety, while we continue supporting our customers, including those providing essential services, such as the central banks and grocery retailers.

We will continue to work on solving customer problems and will utilize our remote and web/video conferencing tools to advance projects and conduct business.

In the meantime, we will continue to maintain a safe and clean work environment and closely monitor the latest developments of COVID-19 from the World Health Organization (WHO), Centers of Disease Controls and Prevention (CDC), and our local authorities.

We will lean on our values during this challenging time.

Please stay safe and healthy,

Digimarc Team
